SERVICES OF AN EXPERT FREE

We have received so many letters from our good friends and patrons, saying: "I want to plant a home garden, but am not familiar with the different varieties. Won't you give me the benefit of your experience and advise me what varieties to plant?" that Mr. Green has decided to make a general suggestion of varieties for home planting. Mr. Green is unusually well qualified to make such a selection, as he is one of the best authorities on varieties in the country. For nearly fifty years he has been a fruit grower and nurseryman himself, also editor of Green's Fruit Grower, one of the largest horticultural publications in the world. The varieties offered in these collections are all thoroughly tried and tested kinds, and can be absolutely relied upon.

TREES AND PLANTS BY MAIL OR PARCEL POST

Parcel Post is a very desirable method of delivery for patrons living at some distance from an express office, but we do not recommend it to our patrons where their express office is not too far away, because the trees and bushes that we offer by parcel post are smaller than those we can send by express and freight. To those residing near or reasonably near an express office we recommend the larger size trees offered in the body of the catalog, but to those living at some great distance from the express office, or in states far distant from our nurseries like the Pacific coast states, to which the express charges would be excessive, the convenience of having the trees delivered directly to your door makes up for the difference in size of the trees and bushes.

Below is a list of the items which we can send by parcel post. **Do not order stock to come by parcel post that is not listed on this page.** See body of catalog for general list of fruit, shade and evergreen trees, also shrubs, and varieties not mentioned in this list, that we send by express and freight, also for description of the plants, etc., offered in this list by parcel post.
